

BIDENIUM WHITEPAPER

Version 1.0 — June 2025

Introduction

Bidenium (\$BIDENIUM) is a satirical memecoin and cultural crypto project launched in 2025 by **Bidenium Labs**. The name is a fusion of “Biden” and the suffix “-ium,” evoking fictional indestructible elements like “unobtainium” or “adamantium.” The branding parodies both the hype-driven world of finance and online meme culture by presenting a token made of “memetic matter.”
